# Cloud Computing Workshop
## Course Content

Techfest is the annual science and technology festival of IIT Bombay.

Following is the basic outline of the in-person workshop that would be happening at Techfest in IIT Bombay.

**The details of the workshop are as follows:**

Cloud Computing

**Content of the Workshop:**
Dive deep into the realm of cloud computing in this immersive workshop.

In Part 1, we'll focus on fortifying your cloud security knowledge, mastering cloud networking, and harnessing the potential of cloud storage.

In Part 2, explore the intricacies of web app development, including authentication strategies, data management, and the transformative power of serverless functions. Whether you're a beginner or an IT aficionado, this workshop will elevate your cloud computing skills and empower you for success in the digital landscape. Join us for a transformative experience in the world of cloud computing!

**Topics to be covered**
Day 1
● Security in the Cloud
● Networking in the Cloud
● Storage in the Cloud

Day 2
● Web App Authentication
● Mutations & Serverless Functions
● Data & Storage
